Description of Placement

This is a General Adult Psychiatry Post on the inpatient unit and Home Based Treatment Team.

Roles and Responsibilities of the Trainee

The job is based at Meadowbrook Unit, which is on the grounds of Salford Royal Hospital. The main responsibilities for the trainee will be working on the Acute Adult Inpatient Unit Two and Half days a week and with the Home Based Treatment Team based at Meadowbrook unit two days a week. There are four wards on the inpatient unit. There is a psychiatric intensive care unit (mixed ward for Salford Patients) called Chaucer Ward; a male recovery ward for Salford patients called Eagleton Ward ; a female recovery ward for Salford patients called Keats Ward, and a male recovery ward for Manchester patients called Mc Coll ward. The majority of patients under the care of Dr Umeadi are on Eagleton and Keats Wards. The higher trainee will visit these wards twice a week with Dr Umeadi.

The trainee will work with inpatients and Home Based Treatment Team Patients from a defined geographical area, which is linked to three GP clusters (Clusters 6, 7, & 8) which are managed by Prescott House Community Mental Health Team. The responsibility for individual patients will be decided with respect to GP practices. There will be 2 ward rounds a week; all day Mondays and half day Thursdays. The Monday ward round will be full MDT ward round which will be attended by Consultant psychiatrist, the higher trainee, the core trainee, a GP trainee, an FY1 doctor, a pharmacist, an admin secretary, nurses, and Care Coordinators. The Thursday ward round will be a walk around ward round in the morning with Dr Umeadi, the higher trainee, GP trainee, and core trainee. The higher trainee is expected to attend MDT meeting at Prescott House CMHT on Wednesday mornings and have a specialist interest session on Thursday afternoons.

The higher trainee will work with Dr Umeadi on the Home based treatment team on Tuesdays and Fridays. This will involve seeing 3 patients a day under the Home Based Treatment Team at Meadowbrook unit for medical reviews. Dr Umeadi will be available all day on these days for advice, supervision, and clarification of any doubts.

There is a core trainee, a GP trainee, and an FY1 doctor attached to the post and the trainee will work closely with them having an opportunity to provide training and supervision. The higher is not expected to have any specific caseloads on the in-patient unit but will see all the patients admitted under Dr Umeadi with Dr Umeadi. The average number of patients on admission at every one time is about 10 to 14.

There will be weekly supervision which usually occurs on Wednesday mornings at 11:00hrs. There is a weekly MRCPsych teaching programme which takes place on Wednesday afternoons between

13.00hrs and 17.00hrs. The trainee will also attend special interest sessions on Thursday afternoons. The trainee will participate in second on-call rota.

Core Clinical Work *Include details of where this will be carried out, type of assessments and therapies for which the doctor in training will be responsible (all experience must be appropriate to the level of training provided)*

The trainee will be expected to record histories and mental state examinations on the electronic patient record. The work will be on the inpatient unit at Meadowbrook and Home based Treatment Team also based at the Meadowbrook Unit. They will be expected to make diagnosis after seeing patients and formulate initial management plan. They will also be expected to write clinical letters to GP after seeing patients under the Home Based Treatment Team.

Intended Learning Objectives *Indicate how the post will meet the trainee's curriculum requirements as identified in the portfolio*

ILO number	
1 - 5	Provide training and supervision, be able to take comprehensive history, carry out mental state examination, carry out risk assessment, produce diagnosis, and formulate management plan.
